54. In the event of a betting interest in the first race of the Double Event being scratched prior to the running of such race, the stakes on all bets which include the scratched betting interest shall be refunded.

- 58.** Where a betting interest in the second race of the Double Event is scratched after the start of the first race of that Double Event and there are bets on the combination of the betting interest finishing first in the first race and that scratched betting interest, the value of the bets on combinations comprising any betting interest in the first race and that scratched betting interest in the second race shall be deducted from the Double Event pool and shall form the pool which shall hereinafter be referred to as “the Special Double”.
- 59.** The dividend payable on the Special Double of the Double Event shall be calculated by dividing the net pool of the Special Double by the value of unit bets on the combination of the betting interest finishing first in the first race of the Double Event and the betting interest in the second race that was scratched after the start of the first race.
- 60.** Before the running of the second race of the Double Event, the promoter shall post the dividends payable on the combinations of the betting interest finishing first in the first race of such Double Event with each betting interest declared to run in such second race. In the event a dead heat is declared for first place in the first race of the Double Event, such dividends will not be posted.
- 61.** If, in any race, a dead heat is declared for first place in either race of the Double Event, involving:

interests, the net Double Event pool or the Double Event jackpot, whichever is applicable, shall be divided into as many equal parts as there are selected combinations qualifying for a dividend and each such part shall be divided respectively by the total value of unit bets selecting each such combination and separate dividends shall be declared.

TRIPLE POOL

63. A Triple bet requires the selection of the first place finisher in each of the three consecutive races nominated by the Promoter for the conduct of a Triple pool.
64. Purchasers of bets in the Triple pool shall make their selection for each of the three races prior to the running of the first race in each such pool.
65. The three races in the Triple pool shall be run on the same day.
66. The Triple pool will be calculated as follows:-
- a) TRIPLE - (WINNER/S) - Gross pool, less Promoters takeout equals Net Pool. Net Pool to be paid as follows – 100% to pay winning ticket/s.
 - b) TRIPLE -", (NO WINNERS) - Gross Pool less Promoters takeout equals Net Pool. Net Pool to be distributed as follows - If there are no winners then the entire Net Pool becomes a carryover.

 - b) Should an occasion arise whereby the Promoter conducts more than 10 races on a single racing programme which would result in a Triple pool being offered on races 9, 10 and 11 or races 10, 11 and 12, as the case maybe, should there be 10 or less races on the next racing programme which would not allow the Promoter to offer Triple pool wagering as set out in the foregoing, (races 9, 10 and 11 or races 10, 11 and 12) then any carryover from races 9, 10 and 11 and will be carried forward to the first Triple pool wager (Triple pool 1 - races 1, 2 and 3) conducted by the Promoter on the immediate following race day. Similarly, the Triple pool

conducted on races 10, 11 and 12, that carryover will be carried forward to Triple pool 2 (races 2, 3 and 4) conducted by the Promoter on the immediate following race day.

- 68.** In the event of one or more of the nominated races in the Triple pool not being run or declared null and void or abandoned, the entire Triple pool for that specific triple pool will be refunded on the surrender of tickets. However, such refund will only be on the pool for that particular day, but will not include any Triple carryover.
- 69.** In the event of a dead-heat being declared for first place in any of the races nominated in the Triple pool, the betting interests involved in the dead-heat shall be deemed full winners in any such race.
- 70.** In the event of a betting interest selected for any race in the Triple pool not coming under Starter's Orders, the actual favourite, as evidenced by the total amounts wagered in the Win pool at the close of betting on that race, shall be substituted for the betting interest which failed to come under Starter's Orders;

QUINELLA POOL

71. A Quinella bet requires the selection of two betting interests to finish in the first two places, in either position, in a race on which the promoter conducts a Quinella pool.
72. In the event of contestants in a coupled entry or mutuel field finishing as the first two finishers in any race, the net Quinella pool shall be distributed on bets combining such coupled entry or mutuel field with the betting interest next finishing.
73. If there are no bets selecting the combination of betting interests finishing first and second, in any order, in a race, on which the Quinella betting option is offered the net Quinella pool, hereinafter referred to as “the Quinella carryover”, shall be carried over and added to the net pool of the next Quinella to be conducted on the promoter’s racing programme from the same racetrack: the aggregate of these amounts shall be deemed the new Quinella pool and shall hereinafter be referred to as “the Quinella jackpot” on which the Quinella dividend shall be calculated.
74. Until there are winning bets in the Quinella pool, the amount of any Quinella jackpot shall be the Quinella carryover.
75. The Quinella dividend shall be calculated by dividing the net Quinella pool or any Quinella jackpot, whichever is applicable, by the value of unit bets selecting the combination of the two betting interests finishing first and second in a race, irrespective of the order of finish.
76. If a race is not run or is declared null and void or abandoned, the stakes on all Quinella bets for that race shall be refunded but such refund shall not include any Quinella carryover or any Quinella jackpot.
